

Proven Success

The Highlight Revolver Auto Band-It™ is the evolution of the Highlight Stretch Band-It™ that has been successfully stretch bundling thousands of products for more than 10 years.

The Revolver Auto Band-It™ will quickly, securely and economically unitize your product in seconds. You select the number of wraps per band or continuous wrapping for full film coverage on your product. The film is heat sealed at the end of the wrapping process for extra security. The film's stretch level is fully adjustable to match your specific load holding requirements.

Custom Solutions for Your Unique Needs

Highlight will design the Revolver Auto Band-It™ to fit your unique packaging needs. Your system can be integrated with conveyors or other equipment to maximize your productivity.

A few of the many successful applications of the Revolver Auto Band-It™.

Wood Moldings

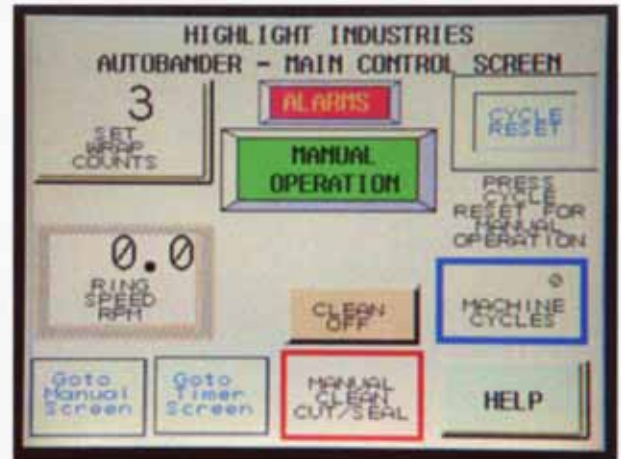

Brake Pads

School Books

Steel Rods
