

Stretch Band-It[®] Stand

Backstop offers package alignment, rear support, and graphic instructions

Mounts securely to table surface

Coated product supports, capacity to 35 pounds.

The Stretch Band-It Stand is a natural addition to any shipping room operation.

Its design is simple. Its uses are many. Mounts easily to table, allowing quick unitization of multiple products.

Combination shipping *saves* you money! Highlight's Band-It Stand together with the Stretch Band-it give you a system that makes it easy to combine packages and cut shipping costs.

Simply set the product(s) to be unitized on the Band-it Stand supports, take your Stretch Band-it and quickly stretch wrap them securely together. Bundled products are easily removed from the coated supports after wrapping.

Quality construction for years of service.

The Band-it Stand accommodates package weights to 35 pounds. Fully adjustable coated steel supports balance your project and allow for quick removal of the bundled product.

Sturdy backplate aligns your packages while you quickly wrap your product together.

The Band-It Stand and Stretch Band-It are a must for every shipping location! Use this system for internal, environmental packaging, and multiple unitization.

Bringing the advantages of stretch film around to your product.
