

SP-9900

SATURN
Strapping Systems

The Saturn ST-9900 is engineered for flexibility and straps pallets quickly, easily and securely anywhere in your plant. Simply push the strapping arm into the pallet and loop the strap around the pallet. Insert the strap into the seal head and in less than two seconds it automatically tensions and heat seals the strap.

- Easy-to-use controls include illuminated on/off switch, reset, strap reverse, strap feed, strap length, and dial for strap tension adjustment from 10 pounds to 120 pounds.
- Engineered for flexibility, allowing you to use any polypropylene strap from 3/8" to 5/8" wide. Strapping arm is 41" long and pivots up and out of the way. Locking casters for portability to move anywhere.
- Dependable design provides years of reliable service with low maintenance costs.
