

FOR VALUE AND RELIABILITY

SYNERGY 1.5

Powered Pre-Stretch With Fast Film Feed

Solid full frame design for EXTRA STRENGTH and years of faithful service.

Simple, easy-to-use controls allow the operator to apply the proper amount of film.

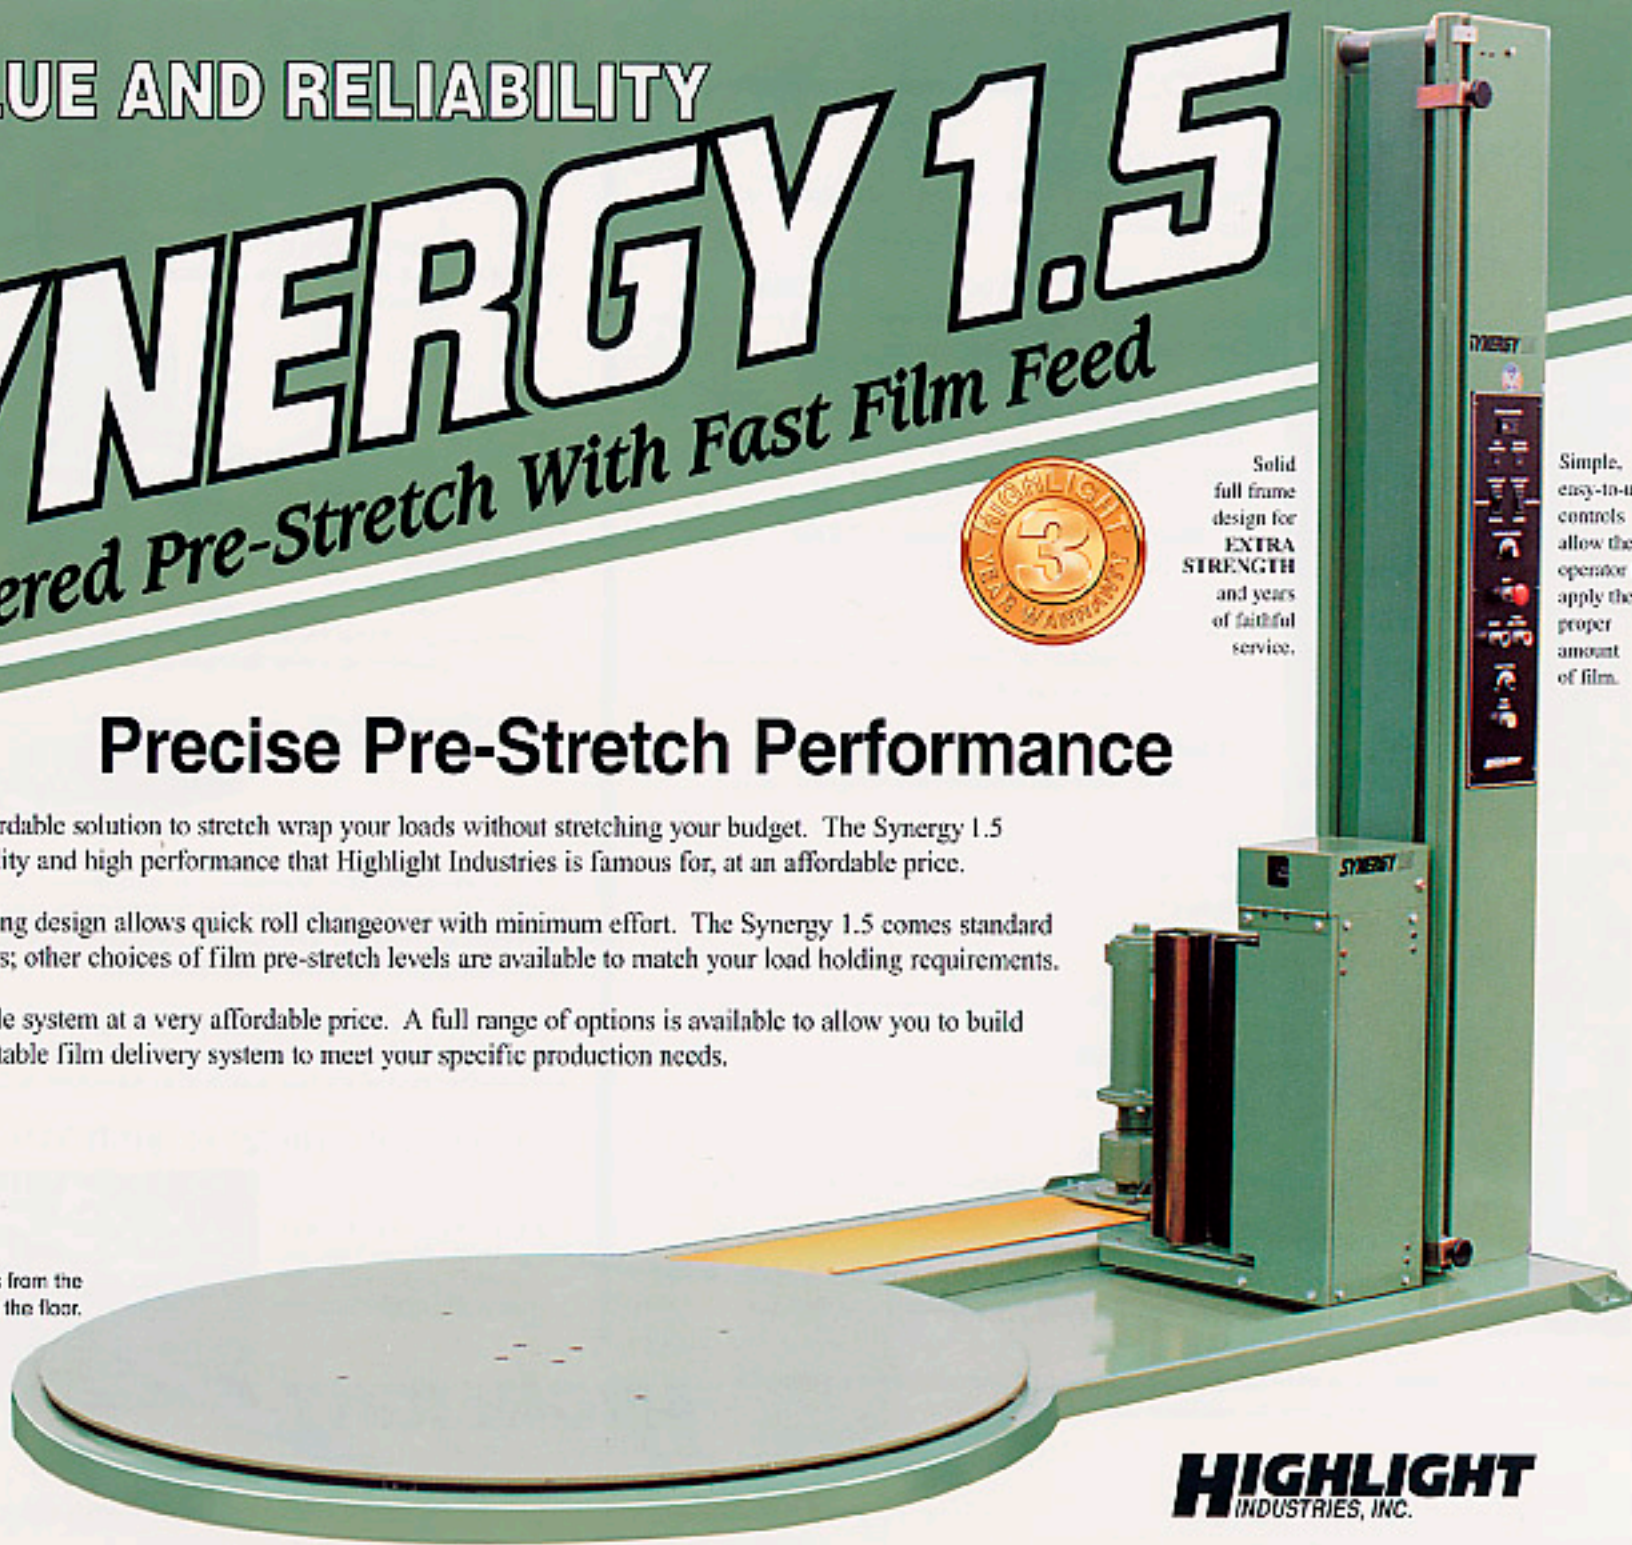

Precise Pre-Stretch Performance

The Synergy 1.5 is the affordable solution to stretch wrap your loads without stretching your budget. The Synergy 1.5 delivers the same high quality and high performance that Highlight Industries is famous for, at an affordable price.

Fast Film Feed film threading design allows quick roll changeover with minimum effort. The Synergy 1.5 comes standard with 200% pre-stretch gears; other choices of film pre-stretch levels are available to match your load holding requirements.

The Synergy 1.5 is a durable system at a very affordable price. A full range of options is available to allow you to build a cost-effective, fully adjustable film delivery system to meet your specific production needs.

Low profile turntable is 2 $\frac{3}{4}$ inches from the floor. High profile is 13 inches from the floor. Both models are 4000 pound capacity and 12 RPM.
